1/ The 1944 price and value figures are preliminary.

The season average prices of corn include an allowance for unredeemed loans at average loan value. For corn, the crop marketing season is Aug. 1 to July 31 for Texas; Sept. 1 to Aug. 31 for Florida, La. and Okla.; Oct. 1 to Sept. 30 for all other States; for oats, the crop marketing season is June 1 to May 31 for Kans., N.C., S.C., Ga., Fla., Tenn., Ala., Miss., Ark., La., Okla., Tex., N.Mex., Ariz., and Calif.; July 1 to June 30 for all other States. The values shown are for the marketing season or crop year and should not be confused with calendar year income.

I/ The 1944 price and value figures are preliminary.

The season average prices include an allowance for unredeemed loans at average loan value. The crop marketing season is June 1 to May 31 for Kans., N.C., S.C., Ga., Tenn., Ala., Miss., Ark., Okla., Tex., N.Mex., Ariz., and Calif.; July 1 to June 30 for all other States. Value of "all wheat" differs slightly from sum of wheat by kinds due to rounding of "all wheat" price.

The values shown are for the marketing season or crop year and should not be confused with calendar year income.

1/ Estimates for each State cover the entire crop, whether commercial or noncommercial, early or late. 2/ The 1944 price and value figures are preliminary. 3/ List of early States excludes California. Average price and total value of all California potatoes shown under surplus late States.

For potatoes, the beginning of the crop marketing season varies between States from December 1 preceding the year shown for Florida and Texas to July 1 of the year shown for the Northern States. The marketing season comprises 12 months in all States except California, which has a 14 month season beginning April 1 of the year shown. For sweetpotatoes, the crop marketing season is June 1 to May 31 in Ga., Fla., and Ala.; Aug. 1 to July 31 in N.J., Ind., Ill., Iowa, Mo., Ky., and Ark.; and July 1 to June 30 in all other States. The values shown are for the marketing season or crop year and should not be confused with calendar year income.

1/ Estimates for the commercial crop relate to apples produced in the commercial apple areas of each State and include fruit produced for sale to commercial processors as well as for sale for fresh consumption.

2/ For some States in certain years, production includes some quantities unharvested on account of scarcity of harvest labor. Price and value apply only to the harvested portion of the crop.

3/ The 1944 price and value figures are preliminary.

The crop marketing season is June 1 to May 31 for N.J., Ind., Ill., Mo., N. Mex., and all South Atlantic and South Central States; July 1 to June 30 for all other States. The values shown are for the marketing season or crop year and should not be confused with calendar year income.
